## SOUTHWEST TEXAS.

From San Diego to Alice—A Fine Country.

Alice, Nueces Co., Texas, June 26.—In the former letter you and I arrived at San Diego. Some claim for it 3000 population; its appearance indicates 2000 to 2500; a pretty, airy, smart looking little town, houses principally American style, well built, tasty, with pretty yards; though three-fourths probably, of the population are Mexicans, as also is the large majority in Duval county. The washing and irrigation water is from wells 100 to 150 feet deep, drawn up by windmills, most of it slightly metallic or saline. Drinking water is from cisterns and from deep holes in San Diego creek, which borders the town. Pure air, plenty of wind, but the sand seems rather heavier than in most of the towns in this section and therefore not so much in the air. Mosquitos from the creek and from the numerous water tanks and barrels keep the residents lively and the visitors restless the year round.

Catholicism prevails, there being few Protestants and fewer Jews. From Realitos eastward farming has increased; East Duval and all Nueces raise much cotton; hence from Benavides the gin, not Holland (Mexican mesical substitutes that) but cotton, is frequent. The queerest feature of San Diego as a county site, is that the Duval and Nueces county line runs through the east suburb of the town. Eventually the county site will be moved or a new county formed. The sandy, open prairie at Pena has gradually disappeared as we neared San Diego and there the country, nearly level is brushy. It will in a decade and a half from today be a splendidly developed farming country. Ten miles eastward from San Diego the "iron horse" screams "a-leeece!" "a-leeece!" and we are at Alice, in Nueces county, a five-year-old town of about 700 population, but rated by business at least 1500, principally American; well improved, a show of blocks in the center, and the balance scattered around on the level, black sandy prairie, the dustiest little town in all the country, the wind always blowing and the real estate always in the air changing places, though not hands.

There the branch of the San Antonio and Aransas Pass railway, striking for the Rio Grande and Mexico, has its present terminus; runs hence north to Skidmore on the San Antonio and Corpus division, coincides with that thence to Kennedy, where it branches off northeast and runs in a nearly straight line, passing through several important county sites, to Harrisburg, just south of Houston, where it unites with the middle and East Texas lines. A hack line runs from here to Brownsville, 160 miles.

Alice will be a large and important town and its territory a fine farming country. G. J. BECK.

**THE STRONG POINT** about the cures by Hood's Sarsaparilla is that they are permanent. They start from the solid foundation—Pure Blood.

**DR. GUNN'S ONION SYRUP** FOR COUGHS, COLDS AND CROUP. **GRANDMOTHER'S ADVICE.** In raising a family of nine children, my only remedy for Coughs, Colds and Croup was onion syrup. It is just as effective to-day as it was forty years ago. Now my grandchildren take Dr. Gunn's Onion Syrup which is already prepared and more pleasant to the taste. Sold everywhere. Large bottles 50 cents. Take no substitute for it. There's nothing as good.

Sold by Williamson Drug Company, Druggists.

## A FRIEND

Speaks through the Boothbay (Me.) Register, of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are in need of a laxative to try Ayer's Pills. They will do good."
